SUMMARY

Results-driven Fullstack Web Developer with 2 years of experience building scalable web and mobile applications using modern technologies. Proficient in frontend development with React, Next.js, and Angular, backend development with C# .NET Core, and mobile app development with Ionic Angular. Experienced in cloud deployment with Azure and passionate about creating efficient, user-centered solutions.

TECHNICAL SKILLS

Frontend Technologies:

- Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
- Frameworks/Libraries: React, Next.js, Angular
- Styling: SASS/SCSS, CSS3, Tailwind CSS
- UI Components: Angular Material, Kendo UI, Tailwind CSS

Backend Technologies:

- Languages: C#
- Frameworks: .NET Core Web API, .NET MVC
- Databases: MySQL
- APIs: RESTful APIs

DevOps & Tools:

- Cloud Platforms: Microsoft Azure
- Version Control: Git
- Development Tools: Visual Studio, VS Code, Figma, SSMS, Github

Mobile Development:

- Hybrid Apps: Ionic Angular
- Cross-platform development

Additional Skills:

- | | |
|--|----------------------------|
| • Web and Mobile Designing | • MVC Architecture |
| • Wireframe, Mock-ups and Prototype Creation | • Logical Thinking |
| • Cross-platform mobile development | • Problem Solving Skills |
| • Responsive Web Design | • Communication Skills |
| • Bug Fixing and System Maintenance | • Research and Development |
| • System Enhancement Planning | • Requirements Analysis |
-

PROFESSIONAL EXPERIENCE

Full Stack Web and Mobile Developer - ODR. Technology Inc.

Dec 2024 - Present

- Assisted in backend API development using C# and .NET Core framework
- Participated in mobile app development using Ionic Angular
- Contributed to frontend development using React, Angular, HTML5, CSS3, and Sass
- Worked with MySQL databases for data storage and retrieval
- Used Git for version control and collaborated on team projects
- Fixed bugs and implemented feature enhancements based on user requirements

Full Stack Developer - Systems & Software Consulting Group, Inc (SSCGI)

June 2024 - Dec 2024

- Assisted in backend API development using C# and .NET Core framework
- Participated in mobile app development using Ionic Angular
- Contributed to frontend development using React, Angular, HTML5, CSS3, and Sass
- Worked with MySQL databases for data storage and retrieval
- Participated in mobile app development using Ionic Angular
- Used Git for version control and collaborated on team projects
- Fixed bugs and implemented feature enhancements based on user requirements

Front End Developer- ODR. Technology Inc.

April 2023 - June 2024

- Developed "I Am Magsaysay" mobile app, the official mobile application of Magsaysay World
- Built "I Am Magsaysay Web Portal" serving as the marketplace for the I Am Magsaysay App
- Utilized Angular, TypeScript, UI Libraries, and Ionic for cross-platform mobile development
- Contributed to application design and user interface development for enhanced user experience
- Developed functionalities for YLO App
- Collaborated with design teams to implement responsive and intuitive user interfaces
- Integrated mobile apps with web portals for seamless user experience across platforms

FEATURED PROJECTS

Zap Mobile App

Tech: Angular, Ionic, TypeScript, C#, .NET, SASS, SQL, Google Maps API

- Developed cross-platform EV charging mobile application with Google Maps integration
- Implemented location-based charging station discovery with adjustable search radius and filtering
- Built Zap token purchasing system and real-time charging progress monitoring
- Created responsive UI using Ionic and Angular with custom SASS styling
- Contributed to backend API development for charging station management and user transactions

Zap Mobile Admin

Tech: React, Next.js, Tailwind CSS, .NET, C#, SQL

- Built comprehensive admin portal dashboard for Zap Mobile App management
- Developed modern, responsive interface using React and Next.js with Tailwind CSS
- Implemented admin functionalities for user management, control for charging station, charging bay and charging connector, and analytics
- Contributed to .NET C# API development for administrative operations and data management
- Role: Full Frontend Responsibility, API Contributor | Company: ODR Technology Inc.

Client Success Portal

Tech: Angular, TypeScript, .NET, C#, SASS, Figma, MySQL, Angular Material

- Developed comprehensive web application for JLL Corporation to track client deals by status (new, in-progress, completed)
- Built responsive frontend using Angular and Angular Material with custom SASS styling
- Implemented admin panel with full CRUD functionality for users, roles, clients, sectors, templates, and reference data
- Contributed to .NET C# API development for deal management and transaction processing
- Collaborated with design team using Figma for UI/UX implementation

Integral 360

Tech: .NET MVC, C#, Kendo UI, MySQL, Azure Cognitive Search, Git, Azure

- Enhanced and maintained I360 AML compliance system serving financial institutions
- Fixed critical bugs and resolved error functionalities in production financial compliance environment
- Implemented advanced search capabilities using Azure Cognitive Search
- Conducted research and development for future enhancements
- Worked with Kendo UI components for enhanced user experience and data visualization

SSCGI Corporate Website

Tech: Angular, TypeScript, C#, .NET, MySQL, CSS, Angular Material

- Developed complete corporate website for Systems & Software Consulting Group Inc.
- Built admin panel for managing employees, roles, and company activities
- Created public-facing site showcasing career opportunities, events, achievements, and services
- Handled full-stack development including frontend, backend API, and database design
- Contributed to UI/UX design process using Figma for enhanced user experience

I Am Magsaysay Mobile App & Web Portal

Tech: Angular, TypeScript, Ionic, UI Libraries

- Developed "I Am Magsaysay" mobile app, the official mobile application of Magsaysay World
- Built comprehensive web portal marketplace for the I Am Magsaysay App ecosystem
- Implemented cross-platform mobile development using Ionic and Angular frameworks
- Contributed to UI/UX design and responsive interface development
- Integrated mobile app with web portal for seamless cross-platform user experience

EDUCATION

Technological University of the Philippines Manila - Bachelor of Science in Computer Science
2019-2023

- Graduated as Cum Laude

San Sebastian College-Recoletos de Cavite - Science, Technology, Engineering and Mathematics
2017-2019

- Graduated with Honors

AWARDS & RECOGNITION

Employee of the Month - Systems & Software Consulting Group, Inc (November 2024)

- Recognized for outstanding performance and contributions to the I360 AML system
- Acknowledged for exceptional problem-solving skills and dedication to project success
