- 222 Calle San Felipe Villa Canacao Subd. Sta. Isabel Kawit, Cavite

EDUCATION

Technological University of the Philippines-Manila

Bachelor of Science in Computer Science

2019-2023

- Cum Laude

San Sebastian College-Recoletos de Cavite

Science, Technology, Engineering, and Mathematics

2017-2019

- Graduated with Honors

SKILLS

- Proficient in HTML, CSS, and Git. Also, in tools like Figma, and Microsoft Word.
- Knowledgeable in Bootstrap, Tailwind, Media Queries, Ionic, Angular, Typescript, JavaScript, C#, .NET, and Azure.
- Wireframe, Mock-ups and Prototype Creation
- Web and Mobile Designing
- Communication Skills
- Logical Thinking
- Problem Solving Skills

Elbert John S. Olivar

Full Stack Web Developer

PROFILE

As a passionate full-stack web and mobile app developer, I am driven by an unwavering commitment to achieving perfection and continuously enhancing my abilities. I possess expertise in HTML, CSS, SASS, JavaScript, TypeScript, and .NET MVC, complemented by strong logical reasoning and problem-solving capabilities. With proficiency in both front-end and back-end development, I seamlessly transform design mock-ups and concepts into intuitive, user-friendly interfaces while also ensuring robust and efficient server-side functionality.

My skill set enables me to deliver end-to-end solutions that align with user and business requirements. I am eager to contribute to an organization that values professional development and offers opportunities to leverage my existing skills while exploring new challenges in full-stack web development.

EXPERIENCE

Full Stack Web Developer

Systems and Software Consulting Group Inc

June 2024 - Present

Technology: Angular, Typescript, UI Libraries, Kendo, .Net

- Developing and maintaining dynamic web applications using Angular and TypeScript.
- Creating responsive, user-friendly interfaces with the integration of advanced UI libraries like Kendo.
- Designing and implementing backend functionality with .NET and MVC frameworks, ensuring seamless integration with front-end components.
- Managing and optimizing relational databases using SQL Server to handle application data effectively.
- Collaborating with cross-functional teams to deliver high-quality software solutions.
- Troubleshooting and debugging issues across the stack to ensure performance and reliability.
- Contributed to maintaining Integral 360, an anti-money laundering web system, ensuring its functionality, security, and compliance with industry standards.
- Played a key role in developing an in-house project and the company website, enhancing the organization's digital presence and operational efficiency.

Front End Developer

ODR. Technology Inc.

April 2023 - Present

Technology: Angular, Typescript, UI Libraries, Ionic

- Developed a mobile app named I Am Magsaysay that is the official mobile app of Magsaysay World.
- Developed a I Am Magsaysay web Portal that is for the marketplace of the I Am Magsaysay App
- Contributed in designing the I Am Magsaysay App
- Contributed in some functionalities of YLO App

PROJECTS

Systems and Software Consulting Group Inc. Website

Full Stack Web Developer / UI Designer [Technology: Angular, TypeScript, UI/UX Design, Web API Development, .NET](#)

- Designed and developed the company website with a focus on responsive, user-friendly interfaces using Angular and TypeScript.
- Leveraged UI/UX design principles to create visually appealing and functional web pages that align with the company's brand identity.
- Developed Web APIs using .NET to support dynamic, data-driven functionality.
- Ensured seamless integration between the front-end and back-end components to deliver a cohesive user experience.
- Conducted thorough testing and debugging to ensure the website was error-free and optimized for performance across all devices and browsers.

Integral 360 (anti-money laundering web system)

Full Stack Web Developer / System Maintainer [Technology: MVC, .NET, C#, SQL DBMS, API Development, Kendo](#)

- Responsible for maintaining and enhancing the Integral 360 web system, ensuring its functionality, reliability, and compliance with anti-money laundering regulations.
- Designed and implemented new features based on evolving business requirements, improving the system's usability and efficiency.
- Utilized MVC architecture with .NET and C# for scalable and maintainable application development.
- Managed and optimized the SQL database to ensure efficient data storage, retrieval, and reporting.
- Integrated Kendo UI components to enhance the user interface and improve the user experience.
- Performed rigorous testing and debugging to maintain system stability and performance.

I Am Magsaysay

Lead Frontend Web and Mobile Developer/ UI Designer [Technology: Angular, Typescript, UI Libraries, Ionic, UI/UX Design](#)

- Participated in the creation of mock-up designs for a mobile application using Figma.
- Executed the implementation and coding of the design into a functional interface utilizing HTML, SASS, Typescript, Angular, and Ionic.
- Responsible with implementing the visual components that users interact with in both the mobile application and the Admin Portal.
- Ensures that both the Admin Portal and the mobile app was responsive and user-friendly.
- Ensures that both the website and the mobile app were free from errors or bugs.

YLO

Frontend Mobile Developer

[Technology: Angular, Typescript, UI Libraries, Ionic, UI/UX Design](#)

- Responsible with both coding and designing specific pages and functionalities within the app.
- Worked with my teammates to make sure that the application is user-friendly.

GIGPH

Lead Frontend Mobile Developer / UI/UX Designer

[Technology: Angular, Typescript, UI Libraries, Ionic, UI/UX Design](#)

- Collaborated with teammates in designing mock-up designs for a mobile application using Figma.
- Tasked with ensuring that the mock-up designs are user-friendly.
- Executed the implementation and coding of the design into a functional interface utilizing HTML, SASS, Typescript, Angular, and Ionic.
- Responsible with implementing the visual components that users interact with in both the mobile application.

VSTR

Frontend Mobile Developer / UI/UX Designer / Lead Developer

Technology: Angular, Typescript, UI Libraries, Ionic, UI/UX Design

- Worked alongside teammates to finalize all functionalities, features, flow, and pages of the mobile application.
- Collaborated with teammates in designing mock-up designs for a mobile application using Figma.
- Tasked with ensuring that the mock-up designs are user-friendly.
